

Velké Bílovice

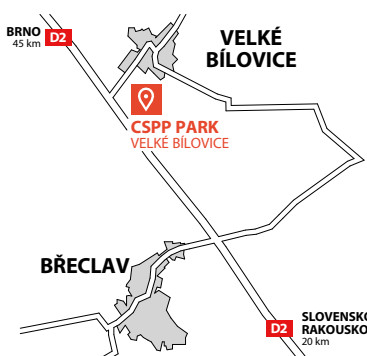

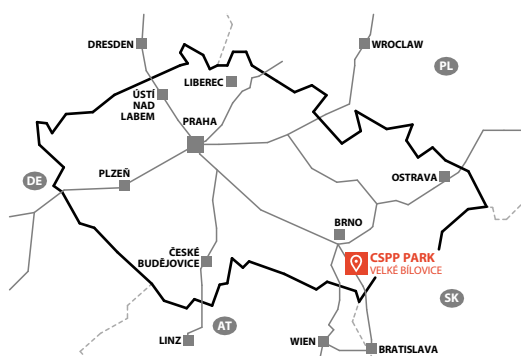

headquarter ČR

COMPLETED
2017

In 2017, in Velké Bílovice, near the D2 highway at the Exit 41, we completed the headquarters of Linde Material Handling for the overhaul of forklift trucks. Thanks to its strategic location on the main highway from Brno to Bratislava, this office also covers neighboring countries. The close distance to Břeclav, Hodonín and the surrounding towns, with a total population catchment of more than 130,000, ensures the availability of skilled labor.
